EasySHED[®]

A quality compact garden shed range that offers secure and affordable storage solutions

EasySHED Flat Roof models are the smallest in Durabuilt's range and offer the convenience of ease of transport and handling. These sheds fit comfortably in restricted areas and yards where space is limited.

The compact design means these sheds are easy to assemble and can be moved if required. Flat Roof models make an ideal garden or storage shed or builders' site office. Refer below for a size to suit your requirements.

Product Code 0100E 1.50m(w) x 0.75m(d) x 1.82m(h) Available Zinc or Colour

EasySHED[®]

Style & space combine with an innovative 5 Step
Assembly sequence for a functional addition

EasySHED Skillion Roof models offer extra head room at the shed front plus added depth, compared to Flat Roof sheds. This provides additional storage space yet still remain compact enough to fit into small yards.

EdgeSAFE[®] rolled safety edges are included in all EasySHED models for protection during handling and a lifetime of use. Skillion Roof Sheds make an ideal garden or storage shed or site office. Refer below for sizes.

EasySHED[®]

For work and play garden sheds, conveniently boxed for versatility and ease of handling

The most popular style in the range, Gable Roof sheds offer a large area for work or storage with the addition of the ridge beam forming an integral part of the construction and increasing strength and stability.

These medium sized sheds are ideal as a garden or tool shed or used for the storage of bikes, toys and general equipment. Refer below for sizes to suit your requirements.

EASY 5 STEP ASSEMBLY

EasySHED's greatest advantage over comparable boxed products is our innovative "5 Step Assembly" sequence. The fully illustrated instructions are comprehensive and user friendly.

Durabuilt Australian made sheds are engineered for quality, strength and security. A power drill is the only tool required. A correctly assembled and anchored shed will withstand strong winds easily.

EdgeSAFE® FOR EASE OF HANDLING

Durabuilt have included the innovative feature of rolled safety edges on all components for quality of finish and ease of handling. *EdgeSAFE*® provides protection during assembly and through a lifetime of use.

EdgeSAFE® panels, channel, door jambs and flashing are a standard feature across the entire *EasySHED* product range.

EasySHED®

5 Step Assembly

The hi-tensile deep profile ribbed steel sheeting used in construction provides an attractive, durable quality for years of performance.

Our coloured sheeting meets Australian Standards (AS/NZS 2728: 1997) and performs in our harsh conditions with a warranty of 10 years in most applications.

AN INSPIRATIONAL COLOUR CHOICE

Our extensive standard colour range is designed to harmonise with period architecture, complement contemporary styles and blend with both town and country.

The Australian landscape has provided the inspiration for the selection of colours which includes the unpainted zinc-aluminium finish.

GUARANTEED FOR QUALITY

Durabuilt sheds are manufactured for quality and strength, and warranted for a period of upto 10 years from the date of purchase.

Retain your proof of purchase to effect your warranty period. Contact the Manufacturer for warranty inclusions.
